

Features and Benefits

Description – The *REC-TURF II* Portable Turf System is a versatile sports surface designed with polypropylene and nylon fibers sewn into a reinforcing scrim layer. Manufactured with an attached resilient backing, this one component turf system provides an owner with the capabilities to convert a hard court area into a shock absorbing field.

Seams – The removable Velcro seaming tape is color matched with the turf and available in 4" wide material. The Velcro encapsulates the seam and allows for an efficient conversion time.

Game Lines – The Velcro game lines are easily fastened to the turf and available in a wide range of colors. They can quickly be reconfigured for a change of game or activity.

Portable – *REC-TURF II* is manufactured in maximum roll lengths of 4 m (13.1 ft) x 30 m (100 ft), weighing approximately 362 kg (800 lbs). The lightweight construction of our durable product allows for versatility and ease of handling by the owner.

Warranty – *REC-TURF II* has a one-year warranty against defect.

Specifications

➤ Pile Content:	50% Nylon / 50% Polypropylene
➤ Pile Height:	9 mm (0.35 inch)
➤ Attached Backing:	Resilient Integral Foam
➤ Backing Thickness:	5mm (0.35 inch)
➤ Total Thickness:	14 mm (0.75 inch)
➤ Total Weight:	2,732 g/m ² (0.61 lb/ft ²)
➤ Standard Width:	4 m (13.1 ft)
➤ Maximum Roll Length:	Recommended 30m (100 ft), for handling purposes

All specifications issued are to British Standard tolerances
